

	Bill	Title	Sponsor	Platform Item	Related Legislation	Summary	Committee	Committee	Committee	Committee	Floor Action	Notes
EDC	4	Education	House Education Committee	Compete for the Nation's Best Teachers		The bill provides flexibility for teacher preparation programs and professional development requirements in order to improve professional growth and student learning. Specifically, the bill requires each district school board to calculate a proportionate share of professional development funds for each classroom teacher. Each classroom teacher must be allowed to use up to 25 percent of his or her proportionate share of funds to select professional development that addresses the academic needs of students or an identified area of professional growth. The DOE must identify professional development opportunities that would require the classroom teacher to demonstrate proficiency in a specific classroom practice. The bill focuses teacher professional development on professional growth and student learning by allowing mandatory training on a topic not linked to these outcomes to count toward inservice requirements only once per 5-year professional certificate validity cycle. The bill provides that students must meet the GPA and General Knowledge Test requirements to complete a teacher preparation program and removes the requirements as admission prerequisites. Accordingly, the bill removes the authority for teacher preparation programs to waive admission requirements. The bill also requires the Commissioner of Education to submit a report by December 1, 2020, to the Governor, Senate President, Speaker of the House, the Board of Governors, and the State Board of Education, to provide recommendations addressing the feasibility of implementing the Pathways in Technology Early College High School program, or a similar program, in Florida.	Education PASSED 15-0 on 2/26
