Empowering School Boards Through Effective Policy Leadership

As the governing body of your school district, your board is accountable to the community—not just for results, but for the vision, values, and direction that drive them. Policy is one of the most powerful tools a board has to lead with purpose. A well-crafted policy sets clear expectations, drives action, and communicates the *why* behind the board's decisions.

Because policy development is a dynamic and continuous process, FSBA's **Policy Forum** is designed to support and strengthen this vital governance role. This full-day session brings together policy experts and experienced FSBA consultants to provide practical tools, fresh insights, and real-world strategies that will help you lead with confidence and clarity.

7:30 - 8:30 am	Continental Breakfast and Networking <i>Policy & Governance: Foundations of Leadership</i>
8:30 - 4:00 pm	The Role of Policy in Effective Governance Building Better Policy: Development Principles & Practices <i>Lunch provided</i> Policy Development (Continued) Keeping Policies Current: Maintenance & Revision Best Practices

Don't forget to complete the CBM form to earn points!
The CBM form will be emailed to you tomorrow at noon.
