

Florida School Boards Association

The voice of education in Florida.

**2020 Legislative Platform
Foundation Document**
(2019 Platform Items That Were Not Fully Accomplished)

- ❖ Allow the Required Local Effort millage rate to reflect increases in property value as well as new construction, as was the historical practice prior to 2016.
- ❖ Address the growing need to recruit and retain highly effective educators through an increase in the Base Student Allocation by a minimum of 3% (\$128) per student over the 2019 allocation.
- ❖ Authorize school districts to re-employ school-based leaders, instructional personnel, and school safety personnel after one month, rather than 12 months, after retirement as currently required by law.
